

Telecom Engineer - Esbjerg

Are you an experienced Telecom engineer, or do you want to become one?

Would you like to be part of a dynamic working culture with a strong collegial community with lots of opportunities?

Then you can be our future colleague in the Telecom team.

Areas of responsibility

You will be a part of our highly specialized Telecom team with our motivated and helpful colleagues, who deliver telecom integration projects to the offshore, energy and maritime sectors.

The job includes telecom service and integration at our customers' premises, both onshore and offshore sites, and on vessels as well.

You will be responsible for projects from design until they are completed according to the project design, our standards, and integrated at the customer's site.

Your key roles and tasks will include:

- Installation, service, and maintenance of telecom solutions, for our energy customers.
- Solutions include, but are not limited to, equipment configuration/testing, before acceptance tests at our customers' sites, installation and maintaining of the delivered solutions.

Your profile

- We expect you to have a relevant technical education such as an electronic technician,

electronics mechanic, instrument engineer, electrician or similar. You are motivated to get knowledge within the field of Telecom - our team will be happy to contribute to you developing knowledge.

- English skills are required, and previous work experience from the energy sector is an advantage, but not required.
- You plan the task with a focus on details work determined and independently. And always with an overview of your current tasks.

We offer:

A flat organization with a direct approach to the ongoing tasks and many years of expertise.

Personal and professional development in a dynamic environment, where no two days are the same.

We have a high level of flexibility and always prioritize work-life-balance.

Interested?

Please do not hesitate to contact Michael Thisgaard at +45 7612 3799 or Henrik Asmussen at +45 7612 3766 if you have any further questions, or write to contact@atcom.dk

We will invite candidates for interviews on an ongoing basis, so please do not hesitate to submit your application as soon as possible. All applications and inquiries will be handled confidentially. We look forward to hearing from you!
